

Headlamp Restoration

Safety is the chief reason to have headlights restored. Yellow and cloudy headlights immensely reduce vision at night which is a major cause of night time accidents. Our distinctive process effectively restores like-new clarity to yellowed, scratched, oxidized, cloudy and contaminated lamps & plastic surfaces leaving radiantly clear and polished headlamps and tail lamps.

Alloy Wheels Polish

Delivers a mirror-like shine and deep, vibrant look to chrome and alloys. Effectively removes stubborn brake dust, tar and grime while keeping tyres looking blacker longer.

À la carte Detailing Services

Exterior Steam Wash

Experience the latest hi-tech steam-jet technology to give your car a sparkling new look. Heat & Pressure combined creates a powerful cleaning solution that melts away dirt, grime, tar, oil, tree sap & bird droppings to give your car that wash 'n' shine you always wanted. You can also have your engine room detailed by cleaning the engine bay of dirt and dressing the engine compartment to beautify and protect it.

Intensive Interior Detailing

Our sophisticated equipments comprising of the Steam-jet machine, Lather foam machine, Spray extractor and bio-degradable detailing products guarantee an intensive cleaning and conditioning to the car's upholstery (fabric/leather), carpets, dashboard console, AC vents, door panels, boot, ceiling, mats & other plastic/rubber/vinyl parts to give you a spotless, glossy and hygienic 'Germ Free' interior. Special conditioners are applied to all plastic, rubber and vinyl parts to pamper and protect it from harmful U.V. exposure and help prevent drying, fading and cracking.

Ozone Treatment

For strong offensive odours produced from food and beverages to cigarettes, decaying matter, pets and mold, our Ozone Treatment permanently kills & eliminates the odour. It also sterilizes your car's interiors and purifies the air quality in the cabin to protect you from health hazards. The OZONE GENERATOR is placed in the rear of the cabin after the interior cleaning to deliver a 'Germ Free' car.

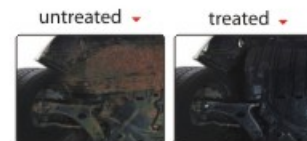

Paint Refinement & Coating Systems with acrylic/polymer sealants

Over a period of time, paint on cars erodes due to the effect of sunlight, UV radiation, dirt, salt, bird droppings and pollution. Our sealants are the beauty packs for cars which make up the ultimate form of protecting the paint finish by sealing the pores and giving a rejuvenated look to painted surfaces. The process corrects swirl marks, dullness and paint scratches through the use of world renowned chemicals and products. The unique blend restores a flawless showroom finish and creates a brilliant high gloss that outlasts all other waxes.

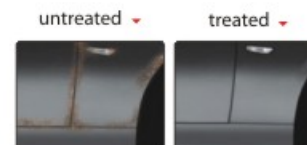

Underbody Polymer Coating

Underbody Polymer Coating is specially formulated to stop automotive corrosion to the underbody, rocker panels and wheel arches while effectively dampening noise and vibration. Heat insulation properties provide for a comfortable drive by shielding from extreme temperatures. The coating comes with a 3-year warranty.

Internal Panel Protection

Our scientifically formulated anti-rust compound provides lasting protection to door jambs, internal door panels, bonnet and trunk against rust and corrosion. It is a wax based treatment that protects unpainted surfaces and recessed cavities where rust most commonly occurs.

Nano Glass Coating

Nano Glass Coating serves as a water repellent and offers rejection against dirt and grime. It ensures improved visibility when driving in heavy rain due to its water repellent qualities provided to the windscreen.

Anti-Glare Glass Treatment

This treatment immensely improves the quality of night vision and overall visibility by removing light scratches and eliminating fume film. The treatment effectively cuts glare from on-coming vehicles.
